 TRACTIONAL BALANCE OF A VEHICLE WITH
 ALLOWANCE FOR THE SLIPPAGE OF THE DRIVING
 WHEELS. [1940] Sp. (5 figs. omitted) 3 refs.
 Order from I.C. or S.I.A. must be 00, (add) 00 61-10310

Trans. of Aviation News From [Yehienong] (USSR)
 1950, no. 9, p. 19-20.

The slipping of the drive wheels influences the trac-
 tional balance of an automobile. The allowance for
 slipping leads to a decrease in the actual speed possible
 in all gears; this speed is diminished most substan-
 tially in the lower gears with high tractional forces.
